Established in 1969, Atlas Paper Bag Co. Ltd. has dedicated itself to manufacturing a wide range of paper bags along with a large selection of sheeted and rolled paper products. Being a privately held corporation, we have aggressively dedicated our resources to employ the most up to date technology and personnel available within the industry. From our state of the art manufacturing facilities in both Canada and abroad, we offer a true value added business partnership to our clients. Our vast market experience and coverage has allowed us to build and foster relationships within the supermarket, food service, processor and distribution networks.

Our history and expertise allows us to meet the demanding standards of the North American market. We comply with standards and requirements as laid out by agencies such as the FDA, USDA, CFIA and the kosher council of North America.

# GENERAL INFORMATION

## Ordering Information - Terms and Conditions

Terms	Payment terms are Net 30 days. All sales are invoiced at price prevailing at time of shipment.
Return	No merchandise may be returned without proper authorization by Atlas Paper Bag Co. Ltd. A 15% re-stocking charge will apply and the return freight must be pre- paid by the customer. Transport claims for damaged or missing products must be made within 30 days, otherwise the claim cannot be honored.
Pallets	Atlas Paper Bag Co. Ltd ships on CHEP pallets (40" x 48") and on non returnable skids. Please ensure to exchange the CHEP pallets. Maximum pallet height is 48 Inches.

## Bag Measurements

### General:

All bag dimensions always have **WIDTH** (the side that opens) as the first number.

**FLAT BAGS** : side seal & bottom seal

**DIMENSIONS:** *width x length*

The **WIDTH** is measured across the opening of the bag.

The **LENGTH** is measured from the opening of the bag to its base.

**SIDE GUSSET BAGS** : A gusset is a fold on the bag that gives added depth by creating expandable sides.

The **WIDTH** is measured across the opening of the bag.

The **DEPTH** is measured across the gusset (side) of the bag when the gusset is **EXTENDED**.

The **LENGTH** is measured from the opening of the bag to its base.

# MATERIAL DESCRIPTIONS

Name	Description
<b>Dry Wax</b>	The wax is impregnated into the paper and leaves very little wax on the surface. Dry waxing is best used for hot products like hot dogs, hamburgers, tray lining or fast food basket liners, etc.
<b>Wet Wax</b>	This type of waxing is when the majority of the wax remains on the top of the sheet which makes the surface of the sheet wet or very waxy. Wet waxed sheets and rolls can be used anywhere where heat is <b>not</b> an issue like cold cuts, meats, pastries, sandwiches and frozen foods. The weights can vary from 3 lbs to 20 lbs of wax, depending on the application requirement.
<b>Grease Proof</b>	A treated paper that offers superior resistance to oil and grease.
<b>Gusset</b>	The side panel of a bag. Second measurement taken when sizing a bag
<b>Laminate</b>	Paper, Foil or Film materials are bonded together to form a stronger material with improved barrier characteristics.
<b>Laminating</b>	The operation of combining two or more layers of material with an adhesive (paper/aluminium; paper/paper; paper/aluminium/poly.) to provided various barrier properties.
<b>Natural Kraft</b>	Kraft paper is a paper produced from chemical pulp produced in the Kraft process. Kraft pulp is darker than other wood pulps, but it can be bleached to make very white pulp. Fully bleached Kraft pulp is used to make high quality paper where strength, whiteness and resistance to yellowing are important.
<b>Notion Bags</b>	Any bag with an “edge” bottom that is heat sealed or glued.
<b>Release</b>	A Release liner is a paper which is coated on one or two sides with a release agent, which provides a release effect against any type of a sticky foods. Release is separation of the liner from a sticky material. a liner is the carrier for the release agent.
