

BRAHMA™

The Brahma bull has adapted over time to function in tough conditions, where the ordinary wouldn't survive.

Just like our Brahma liners. Use when you need the strength of a high-density bag and the flexibility (stretch) of a linear bag. A formula altered to meet the unique conditions where an ordinary high-density liner may not work. Just like the Brahma bull.

Features

- Excellent film strength
- Great choice for source reduction
- A great alternative to everyday high density
- Use when you need a bit of stretch
- Range of sizes and gauges
- Available in natural
- Convenient coreless rolls with star bottom seal
