

# Cutlerease™ SETUP INSTRUCTIONS

## 1 Get Started

Assemble the dispenser in the location where it will be used.

Install tower(s) in the base by sliding them in one at a time.

Remove tape from doors and dispensing slot(s).

## 2 Slide Out

Once dispenser is assembled, slide tower partially forward from the base to access the clear side door (A) and to expose the priming trigger (B).

## 3 Open Doors

Open the top loading door (C).

Open the clear side door (A).

<https://arco.de/be5Apa>

## 4 Load Cutlery

Hold the Cutlery Pack by the tape tab that says **TOP**. With the taped side facing you, slide Cutlery Pack into the top opening and guide it down into the tower.

## 5 Remove Tape

Remove the tape from the Cutlery Pack by pulling the **TOP** tab downward.

If necessary, repeat this step to add another Cutlery Pack.

Tower holds up to three Cutlery Packs.

## 6 Prime Cutlery

To load the first cutlery piece, quickly pull the priming trigger (D) forward **one** time. Pulling more than once will cause cutlery to jam.

The cutlery handle (E) should appear and be ready to dispense.

## 7 Slide In

Slide the tower back into the base.
