

# CUSTOM PRINTED PRODUCTS

Custom printed cups and containers are a go-to for companies that want to fly their colors on a green billboard with front and back-end benefits. Our products help our customers communicate their commitment to waste diversion.

## Custom Print Process

Lead times start when the art proof and production proof are approved and the P.O. is confirmed.

## BPI Certified Compostable

Biodegradable Products Institute (BPI) is a third-party organization that provides certification for materials and products that break down in a commercial composting environment. "BPI Certified" means a product has gone through a rigorous testing process for compostability.

## Molded Fiber Containers

Made with rapidly renewable resources like sugarcane and bamboo

Meet ASTM standards for compostability

Microwaveable and freezable

Hot and cold food friendly

Grease and cut resistant
