

FINELINE®

2021
Product Catalog

Fineline is committed to serving solutions to the food service industry through revolutionary materials, forward-thinking designs, and user-friendly functionality.

The Fineline family has always championed the customer experience. Our ability to produce domestically as well as source from emerging markets has allowed us to provide the most extensive packaging offerings in the food service industry.

Our vast collection of dinnerware, serving bowls, drinking glasses, utensils, and more continues to expand as consumer demands increase. Every one of our products is made with the intent to please. Through quality craftsmanship, functionality, and innovation, we aim to be your first choice in packaging.

**Our driving mission:
upturning industry standards.**

We're revolutionizing the industry with dynamic new ideas that drive value and raise expectations. As we continue to expand, we will never forget our old-fashioned family values: high-performance products at incredible value and a lifetime commitment to our customers.

FINELINE®

Manufactured in the USA to better serve the industry

In the past decade, expectations have risen. Modern consumers have a more discerning eye for sophisticated, well-made packaging. And foodservice professionals want their single-use kitchen tools to work harder for them, speeding up prep and keeping food fresher.

To exceed expectations and maintain our high quality standards, we're making our products at home. With US-based manufacturing plants, we've increased domestic production capabilities so that we can think bigger, produce faster, and focus more on product quality.

Setting trends. Saving our planet.

We're proud to offer consumers a wide range of packaging and plating solutions that work for Earth, not against it. Our eco-conscious products have been improved and refined over the years, ensuring that they stand up to the rigorous quality demands of the industry.

From recyclable PETE to compostable materials like CPLA and bagasse, we choose materials that showcase our enduring love for innovation—and Earth.

THE FINELINE DIFFERENCE

There's a fine line between good and the best

High-performance products

Using high-tech equipment and innovative materials, we create products that are as durable as they are beautiful. Our products are heavyweight, crack-resistant, and premium quality.

Trendsetting table settings

Beautifully prepped and packaged food attracts consumers and sells better. Fineline's time-honored designs and trendy new styles instantly upgrade catered events with practical disposables.

Safety first

Single-use serveware dramatically reduces the chance of harmful bacteria reaching catered food. All of Fineline's products are BPA-free and totally safe for direct food contact. And our tight-fit lids keep freshness sealed in—and everything else sealed out.

Sustainability-driven

We're constantly expanding our eco-friendly collection with products that are biodegradable, compostable, or recyclable, and many of our products are made with over 99% post-consumer recycled content.

Value above all

Our manufacturing capabilities allow us to create custom products with fast turnaround times for maximum efficiency. That's how we deliver quality products at cost-effective prices, and we plan to keep it that way.

FINELINE COLLECTIONS

Innovatively crafted. Brilliantly designed.

Renaissance Collection

Premium, modern, and heavyweight, the Renaissance plate and beverageware collection will make guests think they're dining on fine china.

Signature Blu Collection

Tasteful, with a touch of traditional charm. Signature Blu's classic florals and cobalt-and-gold color scheme set the mood for luxury.

Heritage Collection

Vintage never goes out of style. The Heritage collection's vintage china-inspired designs make it a fitting choice for elegant catered settings.

Solid Squares Collection

This modern collection has quickly become a classic. A comprehensive plate collection that includes the industry's only 4.5" plate.

Wavetrends Collection

Go avant-garde and add a playful touch to the table with our fabulous collection of distinct, attention-grabbing, wave-inspired designs.

Silver Splendor Collection

Timeless with a touch of metal. The very popular Silver Splendor collection is the first choice for any upscale event requiring that extra glimmer!

Flairware Collection

This industry standard plate created in heavyweight has a scalloped, detailed rim that makes beautifully plated food a cinch.

Savvi Serve Collection

Crystal-clear and performance-focused, the Savvi Serve Collection of plates and bowls are a minimal and durable event essential.

Conserveware Collection

This future-focused packaging collection appeals to consumers asking for more eco-conscious packages. BPI-certified, it is made of bagasse and matches to PETE lids.

FINELINE COLLECTIONS

Innovatively crafted. Brilliantly designed.

Golden Secrets Collection

Add glam to your tablescape with gold. This high-quality gilded collection will leave your guests stunned when they realize it isn't real.

Silver Secrets Collection

Complement your serveware with silver. Our bestselling metallic heavyweight collection looks so authentic, it's hard to believe it isn't real silver.

Super Bowl Collection

Prep, serve and store with highly durable round serving bowls. The PETE plastic offers stunning clarity for vibrancy and appeal, and interlocking seals for freshness.

Super Bowl+ Collection

Upgrade your bowls on the go with a clear, stackable, recyclable presentation. The perimeter seal allows food to stay fresh and looking beautiful.

Platter Pleasers Collection

The industry's most comprehensive catering tray-, bowl-, and utensil-focused collection. Find everything you need to create the event of a life time.

Super Sips Collection

Perfect for drinks, smoothies and any other beverage on the go. This beverage collection offers an array of sizes and the ability for multiple sizes to utilize one lid.

Quenchers Collection

Get into the spirit with Quenchers, our fluorescent-toned, party-forward line of barware. Mix it up or shoot one back with shakers, blasters, shooters, and more.

Tiny Tempts Collection

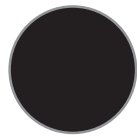

Clean lines, inventive angles, chic shapes—all in miniature. Popular at swanky parties and upscale events, Tiny Tempts are perfect for appetizers and desserts.

ReForm Collection

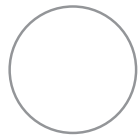

Each product in the Reform Collection is made from a proprietary blend of recycled PP. Perfect for hot and cold foods, this line is heat- and dishwasher-safe.

COLOR INDEX

Our carefully chosen palettes are designed to work seamlessly with a variety of event decor and themes.

FINELINE[®]

Set the table, save the planet.

The world is changing, and the foodservice industry is changing to answer consumers' demand for high-quality eco-conscious solutions.

Tested and refined over the years, our ecologically thoughtful collection stands up to rigorous quality demands. With materials like PETE, bagasse, and CPLA, our biodegradable and compostable products are durable, heavyweight, and artfully designed.

CONSERVEWARE COLLECTION

Offering a significant assortment of dinnerware, serveware, flatware, miniware, drinkware and straws made of bagasse, CPLA, and PETE, Conserveware makes eco-conscious dining easy as pie.

SELFECO COLLECTION

All Selfeco products are made with PLA. PLA is a biopolymer made from starchy renewable plants like corn, switch grass, and sugar beets grown right here in the U.S. PLA reduces greenhouse gases, requires less fossil fuel than petroleum-based plastics, is made of renewable resources, and is 100% compostable.

These earth friendly products look, feel and perform as well as products made of traditional plastics. SelfEco products are rigid, durable and fully compostable.

Fineline
 Set to Innovate™

Create breathtaking tablescapes with ease.

Caterers and party planners alike know that presentation is everything. The disposable plates and bowls in this section don't sacrifice beauty for functionality—until you use them, you'll think they're real china. Our designers have created premium dinnerware collections that will wow dinner guests and elevate events.

FLAIRWARE COLLECTION

Scalloped edges. Textural elements. The Flairware collection's sweeping, detailed rim makes framing food flawlessly a cinch.

SILVER SPLENDOR COLLECTION

Minimal with a touch of metal. The ever-popular Silver Splendor collection reinvents basic dinnerware of all shapes by adding just a touch of glimmer (without being glitzy).

FINELINE®

Practical drinkware, striking shapes—we'll drink to that.

Our extensive collection of drinkware starts with crystal-like wine glasses and glamorous tumblers—and then turns it up a notch with party-ready barware in bright fluorescents. Whatever your event, we've got you covered. All of our glasses are made of the same commitment to quality that takes your event to the next level.

RENAISSANCE COLLECTION

Clean lines, modern shape and heavy-weight material are what the Renaissance drinkware collection is known for. The transparent appearance is the touch of elegance your table needs.

PRODUCT MATERIALS

Eco-conscious and proud of it, Finline strives to make products out of materials that help (never hurt) the planet.

MATERIAL	BENEFITS	PRODUCTS	RANGE
 <p>PETE Polyethylene Terephthalate</p>	<p>The world's most recycled plastic. It's established recyclability stream and clarity made it the ideal product for anything that needs to be displayed.</p>	<p>Plates, trays, bowls, hinged containers, portion cups, miniware</p>	<p>Min. -20°F Max. 130°F</p>
 <p>PP Polypropylene</p>	<p>Microwavable, strong, heat holding retains structure at high heat. Many products in this line contain post consumer recycled materials.</p>	<p>Plates, flatware, containers, straws, hot & warm holding items</p>	<p>Min. 0°F Max. 212°F</p>
 <p>PS Polystyrene Plastic</p>	<p>Rigid superior strength, exceptional clarity, lightweight.</p>	<p>Flatware, dinnerware, rigid items</p>	<p>Min. 40°F Max. 180°F</p>
 <p>PLA Polyactic Acid Plastic</p>	<p>This BPI certified material is a plant based plastic alternative. It's compostability is the right choice for environmentally concerned operators.</p>	<p>Containers, plates, and bowls</p>	<p>Min. 0°F Max. 105°F</p>
 <p>CPLA Crystallized Polyactic Acid Plastic</p>	<p>Heat-resistant and sturdy, this renewable material is made of starchy plants and then crystallized to withstand high heat.</p>	<p>Containers, plates, and flatware</p>	<p>Min. 0°F Max. 185°F</p>

PRODUCT MATERIALS

Eco-conscious and proud of it, Fineline strives to make products out of materials that help (never hurt) the planet.

MATERIAL	BENEFITS	PRODUCTS	RANGE
<p>Bagasse</p>	<p>A 100% compostable natural molded fiber made of sugarcane pulp, bagasse is microwaveable, superstrong, and is grease- and water-resistant.</p>	<p>Plates, trays, bowls, hinged containers, portion cups, miniware</p>	<p>Min. Max. 212°F</p>
<p>Kraft Paper</p>	<p>Our sturdy, water-resistant paper straws are made of an attractive Kraft paper.</p>	<p>Straws</p>	
<p> PLA Coated Paper</p>	<p>Compostable and moisture-resistant, PLA offers eco-friendly sturdiness to disposable cups. A great alternative to PE-coated paper.</p>	<p>Drinkware</p>	
<p>PSM Plastarch Material</p>	<p>Biodegradable and heat-resistant, PSM is a thermoplastic that uses renewable plant starch and a blend of polypropylene fillers.</p>	<p>Flatware</p>	<p>Min. 0°F Max. 200°F</p>
