

# Prevent Slips & Falls with Wet Umbrella Bags

Prevent dangerous and costly slip-and-fall accidents with Wet Umbrella Bags, a convenient and economical option for helping to keep water off the floor during rainy weather. Umbrella Bags are made from strong and cost-effective high density polyethylene. With five large holes designed to accommodate a variety of stand and hook designs, the Umbrella Bag header pack provides easy dispensing for users and makes it easy to replenish the bags.

## Wet Umbrella Bags and Stand

Wet Umbrella Bags are available in two sizes to fit a variety of umbrella sizes and include a bold graphic design. LK offers Umbrella Bag Stands constructed from durable steel materials that are designed to hold and dispense Umbrella Bags on both sides.

| ITEM NUMBER             | ITEM NAME           | SIZE              | CASE PACK |
