# Expanded Entrée2Go™ offering

### Entrée2Go™ Two Piece Containers

Designed for delivery! Fill, stack, go! Now with new 8.5 x 8.5" sizes available in black and white bases.

**Reduced environmental impact**

EarthChoice® mineral filled polypropylene (PP) bases are made with 50% less plastic than traditional polypropylene containers, reducing fossil fuel based material usage. The polypropylene lids are recyclable. Check locally; may not be recyclable in all areas.

**Keep it crispy**

The SmartVent™ system allows steam to release, keeping food hot and crispy even on the go.

**Great for to-go**

These containers are strong, stackable, and moisture resistant so they can stand up to heavy and saucy foods. The clear lids present menu items beautifully and add in order identification.

**Consumer convenience**

Consumers will appreciate that these containers are microwavable and are safe for top rack use in residential dishwashers.

EarthChoice® Entrée2Go is designed for delivery! Now with new 8.5 x 8.5" sizes available in black and white bases!

- Bases are made with 50% less plastic than traditional PP containers
