A Focus on Sustainability

As a leading manufacturer of foodservice disposables, we strive to provide sustainable solutions & new product innovations that meet today's evolving needs without impacting performance.

Discover Sustainable Solutions

Discover our Sustainable Solutions and Earthwise® products on pages 52-65 and marked through out the catalog with the following icons.

 **Compostable**

Products are third-party certified compostable in industrial composting facilities.

 **100% Recycled**

Products are derived from 100% recycled materials, helping to reuse safe paper materials that would typically be wasted.

 **Renewable Resource**

Our products are made with raw materials that come from highly renewable resources such as bamboo, sugar cane, or other naturally occurring materials.

Going Green with Digital

By switching to a digital catalog, we are eliminating approximately 35,000 pounds of paper, plastic binding, and packaging materials annually.

NAPKINS

Dinner & Beverage Napkins, Flat Packs™ & Guest Towels

Linen-Like®

- Hoffmaster's most premium napkin
- Unembossed, thick & soft
- True alternative to linen or cloth
- One napkin lasts an entire meal

FashnPoint®

- Soft, thick & fluffy
- Combines both air and embossing to make a cushiony napkin
- Excellent alternative to linen & cloth
- Absorbent napkin; one napkin lasts an entire meal

Tissue

- More absorbent than competitive tissue napkins
- Great alternative to dispenser napkins
- Available in 1, 2 or 3 plies

Favorite Birds OF NORTH AMERICA

BLUE JAY
Big, noisy and colorful. Credited with planting oak and beech forests.

BROWN THRASHER
Eat insects on or near the ground. Sings from a tree-top perch.

REDSTART
Most lively of warblers, rarely still. Jumps into air after insects.

BALTIMORE ORIOLE
The nest is a woven bag, 6 inches deep, suspended from small twigs.

FIELD MOUSE
persistent the year. Likes wood.

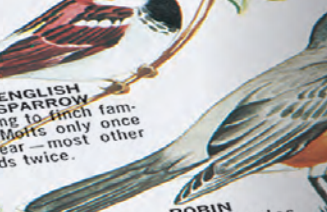

INDIGO BUNTING
In summer it eats insects; in winter, weed seeds. Sings into late summer.

ENGLISH SPARROW
Belong to finch family. Motts only once a year — most other birds twice.

OLIVE-BACKED KINGBIRD
Olive-green back feathers bleach out to gray in spring.

ROBIN
Fights rival males trespassing on nesting territory. Even his own reflected image.

RUBY-THROATED HUMMINGBIRD
The only bird that can hover, move forward or backward in flight.

HOUSE WREN
Are great scolders. Sings more from bubbling energy than beauty.

RED-BACKED SAPSUCKER
Nest of water bubbles a mile.

Fluted Hot Dog Trays

Finding the perfect fit

To ensure the proper match between baking pan and baking paper, we have provided the measurements for all baking papers offered. Measurements include Blank (overall diameter), Base Diameter and Wall Height. To get the correct measurements from an existing baking cup, flatten out the baking cup and lay it on a hard surface. Using a ruler, measure the three dimensions shown to the right. The same principles apply to measuring oblong products, using the chart to the right.

FLUTED BAKE CUPS, TRAYS & LINERS

CERTIFICATIONS

The Biodegradable Products Institute (BPI) is North America’s leading certifier of compostable products and packaging. The organization is science-driven, and supports a shift to the circular economy by promoting the production, use, and appropriate end of lives for materials and products that are designed to fully biodegrade in specific biologically active environments. All products certified by BPI meet ASTM standards for compostability, are subject to eligibility criteria around the connection to food scraps, meet limits for total fluorine (PFAS), and must display the BPI Certification Mark. BPI’s certification program operates in conjunction with education and advocacy efforts designed to support the broader effort to keep food scraps and other organics out of landfills.

The Compostable Manufacturing Appliance (CMA) is a global leader in providing industrial composting facilities an acceptance standard for compostables. The organization has pioneered field-testing processes and continues to extend that knowledge to a growing number of partner facilities across North America. By performing field disintegration testing through several prominent processing methods, it’s ensured that products sent to industrial compost facilities adequately break down within the production cycle while meeting ASTM D6400 and D6868 requirements.

The Forest Stewardship Council® (FSC) is a global, not for-profit organization dedicated to the promotion of responsible forest management worldwide. FSC® defines standards based on agreed principles for responsible forest stewardship that are supported by environmental, social, and economic stakeholders. HGI maintains FSC Certification. Products with the mix label are made of FSC-certified and other controlled material.

SFI® is an independent, non-profit organization dedicated to promoting sustainable forest management. SFI’s forest certification standard is based on principles that promote sustainable forest management, including measures to protect water quality, biodiversity, wildlife habitat, species at risk, and Forests with Exceptional Conservation Value.

Green Seal™ is an independent non-profit organization that uses science-based standards and the power of the marketplace to create a more sustainable world. Its certification identifies industry leaders, with only the top 15-20% of the market expected to achieve certification, and demonstrates reliability, fairness, and integrity.
