About Us

QUALITY PRODUCTS • PROFESSIONAL SERVICE • COMPETITIVE PRICES

Since our inception in 2005, Janico has become the trusted one-stop resource for commercial grade cleaning and janitorial products at extremely competitive prices. Our ability to provide innovative and durable products; that are trusted by commercial cleaners, health care facilities, food service professionals, and the hospitality industry; has made us the first call for people who need a nimble and reliable supplier who takes the time to cultivate and maintain long-lasting relationships with distributors and customers alike.

Our reputation for quality, innovation and service has enabled us to continue to grow and expand our product selections. This growth has resulted, in a number of new product additions to the Janico catalog including: NEW ScentBon™ aerosol sprays, technologically advanced NEW Oxygen Powered™ air fresheners and dispensers, NEW Bristles™ street brooms, and upgraded Bristles™ mops just to name a few. Janico is also proud provide continued improvements in our global production facilities. As we have grown and improved, Janico has been able to leverage technology and our scalability to provide: more efficient manufacturing; innovative product development; and faster shipping and logistical coordination.

As we move forward we continue to look for strategic distribution partners who want to offer higher-quality janitorial and commercial cleaning products at the best prices.

If you are interested in becoming a Janico Distributor, contact the Janico Sales Team at: 732.370.2223 or email us at: info@janicoinc.com.

We stands behind our product. If you or your consumers have any questions, comments, or concerns, we invite you to contact us at info@janicoinc.com.

ScentBon: Odor Control

Oxygen Powered Air Fresheners

- Continuously delivers precise doses of fresh scent and odor control for 60 days
- No harmful emissions, solvents or propellants
- Works against gravity so the fragrance oil won't pool or leak
- Unique cellular diffuser will not dry out or become saturated too quickly
- Indicator light provides refill and battery replacement reminders
- Low VOCs, so they're ideal for green buildings & LEED certification requirements
- Refills last up to 60 days and are 100% recyclable
- Environmentally friendly
- Operates on (2) AA batteries (not included) and lasts up to 2 years

Vented sides for effective fragrance dispersal

Refills eliminate tobacco, sweat, mildew, animal and body odors

**LASTS
60
DAYS**

Microfiber: Benefits

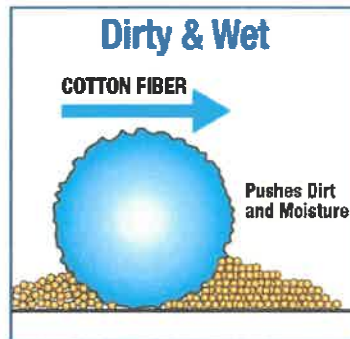

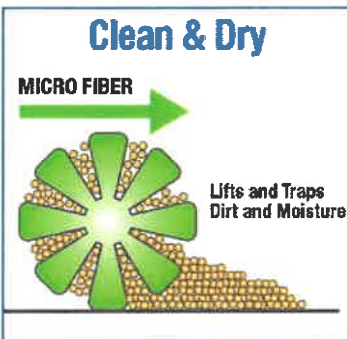

The Benefits of Microfiber Use

Microfibers have created a little revolution in the cleaning world. It's impact, besides being labor saving and cost saving, is it's environmentally friendly. Microfiber cleaning products are precision cleaning tools with remarkable efficiency that allow cleaning on a microscopic scale. According to tests, using microfiber materials to clean a surface, leads to reducing the number of bacteria by 99%! Using conventional cleaning material reduces this number by only 33%.

Ordinary loop mops use a large amount of water, mixed with cleaning solutions to be efficient. Microfiber mops require a negligible quantity of water and is still more effective at getting the job done.

As for laundering, microfiber mops are easier to launder and do not require specific washing machine and cleaning products. Taking much less space in washers and dryers, they also reduce water use, detergent and energy.

Recycled plastic products are used to produce microfiber, which in turn can be recycled.

It's Better!

Benefits of cleaning with microfiber include:

- Scoops and traps dirt
- Holds 6 - 7 times its weight in liquid
- Can be laundered hundreds of times

- Smooth and even cleaning applications
- Color coded options available
- Lint free
- Non-abrasive
- Hypo-allergenic
- Floors dry quicker

It's Green!

Less chemicals are needed for the average cleaning. So there's less contaminated water entering the water stream! Plus, microfiber products last longer!

Waste: Accessories

15

Garbage Can Dolly w/Bolted Casters

- Fits all 20, 32, 44 and 55 gallon cans
- Heavy duty rotating wheels for maximum mobility
- Includes extra heavy duty bolted casters

Garbage Can Dolly w/Molded Casters

- Fits all 20, 32, 44 and 55 gallon cans
- Heavy duty rotating wheels for maximum mobility

Smoking Receptacles

- Constructed for outdoor use
- Three colors to choose from
- Galvanized pail for easy disposal

Wet Mopping 101

The more you understand about wet mops the more you will get out of your purchase from Janico. The information below should help you select the right mop to handle your commercial cleaning and floor care needs.

GENERAL MOPPING

For general mopping tasks select a mop with a higher absorbency, release and durability. If you are able to launder your mops, we would recommend a launderable mop that lasts longer. To get the best performance for the money look for synthetic blended or rayon blended mops with looped ends and tailbands.

FINISH MOPPING

Look for rayon or synthetic blended mops for high absorbency and release, plus features such as a sewn tailband and looped ends for more even coverage and less potential for streaking.

LOOPED END

CUT END

Looped end mops are more expensive initially, but end-users save more time mopping and are purchasing a more durable mop, making a looped end mop a better overall choice in the long run.

3042 p. 38

BLEND

3616 p. 44

SYNTHETIC

3362 p. 39

BLEND

LAUNDERABILITY OF MOP HEADS

The launderability of a mop is based on the number of washing and drying cycles a mop can withstand before it begins to degrade or the performance begins to decline. Mop heads with synthetic or blended fibers have the highest level of launderability.

UNDERSTANDING ABSORBENCY

The absorbency of a wet mop refers to the ability of the mop to pick up and retain liquids. Higher levels of absorbency promote faster floor drying times. This in turn leads to greater productivity and overall safety. Rayon and cotton yarns have the same level of absorbency.

3724 p. 43

MOP RELEASE OR RETENTION

Release is the ability of the mop to disperse liquid onto the floor or during the wringing process. Higher levels promote a more complete wringing. This also improves the efficiency of applying cleaning solutions to the floor. Rayon and synthetic yarns provide the best release of liquids.

DURABILITY OF YOUR MOP HEAD(S)

Mop durability is the measure of how long your mop will last or perform before needing a replacement. Rayon and blended mops have proven to be the most durable over years of testing.

Hand Dryers

Automatic Dryer Advantages

Looking to save money while providing cleaner more environmentally friendly restrooms? DryBon™ has the solution!

- One ton of paper consumes 17 trees, three cubic yards of landfill space and pollutes 20,000 gallons of water. Even before the paper towels are used, each ton has claimed 20,000 gallons of water in chemical cleansing.
- The power consumption to dry hands is far less than the power required to produce a single paper towel!
- Average cost of paper is 3 cents per hand dry, think of how quick you can make back your money. Hand dryers can cut costs by as much as 90%, when compared to paper towels.
- An energy-efficient hand dryer can dry one's hands 55 times for the cost of one paper towel.
- Hand Dryers require very little maintenance compared to paper towels, which must be replaced.
- No one wants to touch extra restroom surfaces if they can help it. Hand dryers help with deter cross-contamination.

Automatic Hand Dryers

- Features an infrared sensor for hygienic touch-free operation
- Ultra slim body for minimum footprint and durable stainless steel cover suitable for high-traffic facilities
- Higher efficiency and lower energy costs - 500W motor dries hands in only 15 seconds and saves 95% cost vs. paper towels
- 45 seconds safety timer
- Intelligent heater, adjusts to ambient temperature
- Easy Maintenance
- Available in metallic black, silver chrome, brushed nickel, and white.

Cleaning: Wringers & Buckets

Side Press Mopping Wringer

- Corrosion resistant handle and hardware
- Rubber tipped wringer handle provides easy grip
- Fits our 35 quart bucket

1011

Down Press Mopping Wringer

- Corrosion resistant handle and hardware
- Rubber tipped wringer handle provides easy grip
- Compatible with both single & double buckets
- Increases leverage and reduces fatigue
- Fits our 35 quart bucket

1013

Mop Bucket Replacement Wheels

- 3" non marking metal casters

1008

Mop Bucket

- 35 qt. mop bucket with 3" non marking metal casters
- Corrosion resistant handle and hardware
- Multi-lingual caution markings on side of bucket
- Round shape for easy pouring

1009

Microfiber Wet Mop Bucket

- Interior sieve drip-dry grid to maintain proper moisture balance of mop pads
- 2" metal casters
- 22 qt. capacity
