A Legacy of Excellence

Founded in 1919, HOSPECO celebrated 100 years of business in 2019. Now, a new century of service begins with a new name and a fresh philosophy that is designed to meet the needs of today's marketplace

In recent years, the company has strategically acquired complementary companies and brands to expand its category expertise and offer a broader selection of products. These acquisitions now culminate with the introduction of Hospeco Brands Group™. The new Hospeco Brands Group has a customized approach to each of its market channels, offering each segment a powerhouse product lineup supported by nuanced educational tools, training, sales collateral, and knowledgeable field and inside sales support required to super-serve customers.

The brand integrations that helped form the Hospeco Brands Group are: **Acute Care Pharmaceuticals**, provider of USP 797 and USP 800 compliant disposable product for compounding pharmacies and cleanrooms, many sold under the respected Pharma-Choice™ name; **Adenna®**, an industry-leading manufacturer and supplier of disposable gloves, safety products, wiping cloths and workplace essentials; **HOSPECO®**, a leading manufacturer of cleaning and protection products serving the "away from home" marketplace; and **Nilodor®**, known for odor control and facility care solutions for commercial markets, including odor control and complete carpet maintenance programs.

Our World Revolves Around You

Hospeco Brands Group national sales team exists to support our distributor partners in driving product solutions and greater value to our end use customers to assist them in achieving that healthy, safe, clean, comfortable, and productive environment for their constituencies.

We Maximize Distributor Partner Turn-and-Earn

Our Signature Bundle of Products includes:

- Washroom Essentials: menstrual care products, toilet seat covers, and air care/odor control products
- Cleaning/Wiping Products: disposable wipers, wovens, microfiber towels/surface cleaning systems, and cleanroom products
- Safety Products: disposable gloves, PPE, infectious control products, and sorbents
- Facility Care Products: odor elimination, drain care, carpet care, spot removal, and waste container/dumpster care

All these products are available to be bundled for shipping from any of our 4 Manufacturing/DC locations: Knoxville, TN, Sparks, NV, Ontario, CA, and Bolivar, OH.

These locations enable us to provide timely transit times, while reducing carrying costs and improving inventory turns for you, helping manage your customers' fluctuations in demand.

Take public restroom hygiene and convenience to the next level

Redefining a well appointed public restroom

With no-touch sink faucets, soap dispensers and hand dryers being a standard in many public restrooms and automated toilet seat cover dispensers becoming an emerging trend, the Evogen® No-Touch Menstrual Care Product Dispensers further promote a sanitary environment guests will appreciate.

Hospeco Brands Group developed the first and only no-touch menstrual care product dispensers to vend complimentary sanitary napkins and tampons effortlessly, making public restrooms more hygienic and reducing the spread of germs and illnesses. The touch-free design provides greater convenience, creating a more upscale atmosphere and enhanced customer experience.

Evogen® No-Touch Dual Menstrual Care Product Dispensers

- FREE vend only in large capacity (EVNT3) for high traffic restrooms and compact (EVNT4) size for smaller restrooms
- Modern, streamlined ADA-compliant design with easy loading and re-stocking
- Dispense Maxithins®, Gards® or Enviro Gards® Pads and Tampax® Tampons
- Empty and low battery indicator lights for easy maintenance
- Solid red light indicates the batteries are low and should be replaced.
- Flashing red light indicates a channel is out of product
- Dispenser requires (4) AA batteries (not included)
- EVNT3: Covered by one or more of the following US Patent Nos. 11,185,453 and 11,246,771; EVNT4: Patent Pending

Factory programmed 5 second time delay between dispenses to discourage malicious use.

The Ultimate Hands-Free Menstrual Care Product Dispensing Solution!

The new Evogen® Tri-Vend High-Capacity No-Touch Menstrual Care Product Dispenser from Hospeco Brands Group provides three solutions at once. First, the one-of-a-kind dispenser improves comfort and convenience for patrons with greater product choice and an inviting, hands-free experience; second the unit allows staff to spend less time stocking product; and, finally, the modern, hands-free dispensing action helps prevent the spread of germs and illness by eliminating yet another contact point in the restroom.

This innovative, high-capacity dispenser takes public restroom hygiene and convenience to the next level by vending tampons and pads to guests, free of charge. The dispenser has capacity to hold 36 pads and 50 tampons at the same time. Pads can be 36 of the same kind or 18 each of two different kinds, for added customer choice.

Product vends when patrons present their hand in front of the sensor. When the sensor has engaged, the dispensing area alights with purple glow providing a comfortable assurance the dispensing process has begun.

Evogen® Tri-Vend High Capacity No-Touch Menstrual Care Product Dispenser

- The Evogen® Tri-Vend High Capacity No-Touch Menstrual Care Product Dispenser is designed to reduce the spread of germs and illnesses in public restrooms.
- Dispenses both pads and tampons, free of charge. A national movement is advancing the fact that these products should be treated just like toilet paper, towels, and soap—a necessity, not a luxury.
- This high capacity dispenser is ideal for high traffic restrooms in airports, arenas, amusement parks, casinos and more.
- Increased capacity cuts down on service time for maintenance staff, translating into cost savings and efficiency.
- The touch-free feature contributes to creating a more upscale atmosphere by enhancing guests' overall comfort and experience.
- Dispenser requires (4) C batteries (not included)
- U.S. Patent # 11,141,328

Factory programmed 5 second time delay between dispenses to discourage malicious use.

LBM500HD	Medium - 10" x 4" x 12", Frosted Clear, HDPE	1 cs	500/cs
LBSF500HD	SecureFit360® - 12.5" x 23", 7.5" strap, Frosted Clear, HDPE	1 cs	500/cs

New and improved high density polyethylene material provides a formed and snug fit. The 12 micron thickness adds maximum strength and performance. Frosted to mask contents yet still allows cleaning staff to see and avoid potential needles and other sharps. Environmentally Friendly - sends up to 50% less material weight to landfills than kraft waxed paper bag liners.

Liners cover the inside surface to completely contain waste.

SecureFit360® poly liner bags are custom designed with a unique strap that wraps around the bottom of the receptacle to secure in place and enclose waste for fast, easy and safe removal. Strap keeps the bag tight fitting so it doesn't collapse inside the receptacle.

The 7.5-inch wraparound strap is used as a handle to eliminate the need to reach into receptacles to remove the liner. Simply pull up on the strap for safe removal of the contained and concealed contents.

The new and improved standard in toilet seat cover systems

Now even better! The first and ONLY hands-free toilet seat cover system

Introducing the patent-pending Evogen® High Capacity No-Touch Toilet Seat Cover Dispensing System. New increased capacity translates into cost savings with less service time required to maintain. The system is fully contained, that is, there is no unhygienic pre-displaying of product. Instead, all seat covers are kept clean inside the dispenser. Then, with a wave of the hand, a single cover is dispensed automatically. And the seat cover is presented from the dispenser in full and ready to use — not folded and no tabs to tear.

Customers expect hands-free technology in the restroom. It's time the toilet seat cover joins the higher level of customer expectation. That's the Evogen® High Capacity No-Touch Toilet Seat Cover Dispensing System — hands-free satisfaction.

Evogen® High Capacity No-Touch Toilet Seat Cover System

- Eliminates plumbing problems caused by malicious use - patrons glomming a handful from an open dispenser
- Empty indicator light
- Easy front load access for refill
- Similar foot print to existing dispensers
- Improves the image of the restroom
- Extended battery life – only operates when dispensing (uses 4 "AA" batteries - not included)
- Holds 2 packs of refills, up to 250 seat covers
- Increased capacity cuts down on service time for maintenance staff
- Thicker and heavier paper for superior sanitary barrier
- Unfolded and "ready-to-use" direct from dispenser
- No tabs to tear reducing time, embarrassing noise, and waste resulting from either tearing the seat cover and/or dispensing more than one.
- Covered by one or more of the following US Patent Nos. 10,888,203 and 11,109,724

Air care simplified

The AirWorks® Complementary Air Care System

Solutions included in the complementary system are marked with this symbol in the odor control section.

No client should ever smell anything unpleasant anywhere in any facility. Cleanliness of the restroom is one of the most important factors in the overall patron perception of an establishment. A poorly maintained restroom can turn clientele away from an establishment permanently.

Every commercial enterprise should incorporate some form of ambient scenting as part of its marketing strategy to increase traffic and customer satisfaction. The AirWorks® Complementary Air Care System is created with products that have corresponding fragrances of varying intensities, creating a uniform scent throughout the space.

AirWorks® SPLASH FREE™ Urinal Screen

- Unique draining system in every micro-tube, leaves the screen residue free
- Stays fresh for up to 30 days with continuous odor control
- Material formula contains enzymes to prevent unpleasant odors
- Screen prevents the passage of debris into drains, helping to prevent costly plumbing repairs
- Flexible EVA material with raised feet on bottom, for use in both dry and standing water urinals
- VOC compliant in all 50 states

Micro-Tube Patented Technology

Releases a fresh burst of fragrance with use and helps avoid offensive splashing inside and around the urinal keeping both the facility and the patron clean and dry.

Nilodor's exclusive Single Scent Solution ensures a coordinated fragrance for all steps of cleaning and odor control.

Co-mingling multiple scents may lead to a more offensive odor than the one you're trying to eliminate. Additionally, it can lead to people wondering what malodor you are trying to hide.

Single Scent Solutions are extensive. These products address all four stages of restroom odor control and cleaning.

Single Scent Solutions are denoted with this symbol in the odor control section.

Water Soluble Deodorizers

Cleaning and deodorizing time can be greatly reduced by adding our water soluble deodorizers to cleaners or plain mop water. This allows the user to clean and deodorize the total surface area in one easy step.

Nilium® Water Soluble Neutralizer Concentrate

- Neutralizes malodors instead of simply masking them
- Dilutes 1 oz. per gallon of water, or cleaning solution
- Multi-Purpose deodorizer
- One application of Nilium® will counteract odors up to 24 hours
- Compatible with cleaners, disinfectants, bleach, and quats

Specialty Wipers

EasyTask® GrabBox® Refillable Cleaning System

- Add any cleaning or disinfectant solution to one of our wiper options for a durable wet wipe. Clean and disinfect hard non-porous surfaces in one step!
- Eliminates cross contamination on surfaces – use a new wipe each time
- System reduces vapors and fumes caused from cleaning/disinfecting solutions
- GrabBox® contains wipers in a resealable bag within the portable heavy-duty cardboard box
- GrabBox® features a convenient carry handle for transporting wipers
- Resealable bag keeps wipers moist
- Holds 1/2 gallon (2 quarts) of liquid
- Chemical Identification Panel printed on box so you can easily fill-in and identify the solution used to make your pre-moistened wipe.
- To prevent possible contamination, wet wipes should not be returned to the resealable bag once they have been removed

Spunlace Wipers

- Wipers are perforated on a centerfeed roll
- Durable and low lint
- Excellent tear strength
- Solvent resistant
- Available in 2 spunlace wiper finishes:
Smooth - For pre-moistened applications
Creped - For pre-moistened and dry applications
- Roll size: 6.375" diameter x 10" high
- Roll not compatible with EasyTask® Bucket

Premium Series Wipers - Hydrospun

- Wipers are 1/4 folded
- Great for cleaning and sanitizing tables, countertops and kitchenware
- Hydrospun is one of the most versatile nonwoven materials
- Durable, absorbent and low lint

Simply add cleaning or disinfectant solution to the bag inside the GrabBox® to **create your own durable wet wipe.**

Note: Please follow the recommended guidelines and kill claims on any chemicals used to make the pre-moistened wipe.

Learn the Difference! Clean vs. Disinfect

Clean

Remove germs, dirt, and impurities from surfaces. Cleaning does not kill germs, but lowers their numbers and the risk of spreading infection.

Disinfect

Use chemicals to kill germs on surfaces. Killing germs on a surface after cleaning, lowers the risk of spreading infection.

Simple design. Profound impact.

The revolutionary SPHERGO® Flat Surface Cleaning System

The SPHERGO® surface-cleaning base tool together with MicroWorks® microfiber cleaning pads — was developed specifically to address problems presented by using traditional rag cleaning and wiping systems for flat surfaces.

Musculoskeletal disorders (MSDs), including back and trunk injuries, carpal tunnel syndrome, bursitis, and tendonitis, are cumulative “ergonomic injuries” that commonly occur in workers in the cleaning and sanitation industry. The costs of MSDs to businesses can be massive in both human and financial terms.

SPHERGO® Flat Surface Cleaning System

- Faster and more efficient – greater surface area is cleaned in one motion
- Improves productivity, reduces fatigue, increases job satisfaction
- Medium base tool for use with 5" x 11" microfiber flat pad for horizontal and vertical flat surfaces (counters, walls, windows, etc.)
- Large base tool for use with 5" x 16" microfiber flat pad and telescoping handle for floor care
- Lightweight: SPHERGO® medium tool plus pad weighs less than 0.5 lbs; SPHERGO® large tool plus telescoping pole w/socket weighs less than 1.5 lbs
- Hook and loop fabric for attaching microfiber pad
- Telescoping pole w/snap-in socket adjusts up to 62" for floor applications
- 24" extended reach pole w/snap-in socket for hard-to-reach areas
- Tools can be incorporated into existing microfiber protocols

Patent-pending spherical ball handle is engineered for optimal ergonomic comfort, allowing a more neutral positioning of the wrist for greater comfort and productivity while minimizing musculoskeletal stresses common to manual cleaning processes.

Ease of motion. Better reach. Easier cleaning.

Innovative SPHERGO SWIVEL® mop handle eases wrist strain. Ease of motion, better reach make life easier for cleaning professionals.

Repetitive stress injuries (RSIs) are a hazard of working as a professional cleaner, but it doesn't have to be this way. The Sphergo® line of ergonomic surface cleaning tools continues to improve working conditions for these vital members of the workforce with the new Sphergo Swivel® mopping tool, specially designed to reduce RSIs.

SPHERGO SWIVEL® Mopping Tool

- The Sphergo Swivel® unique curved pole positions the mopping tool and body in a less stressful posture to reduce repetitive strain injuries
- Rotating ball handle allows for improved grip and control
- The curved pole paired with rotating ball on the handle allows for effortless smooth mopping "S" motion
- Sphergo Swivel® curved pole allows for farther reach underneath low-clearance obstructions like beds, chairs, and desks relative to a tradition straight mop while eliminating awkward bending. Trapezoid frame design provides easier access into corners and along baseboards
- The base's rounded edges help prevent any damage to sensitive areas such as wood trim or wooden furniture legs
- Replaceable hook and loop strips
- Light Aluminum frame.

Rotating ball handle allows for improved grip and control.

Curved pole allows for farther reach under beds, chairs and more.

Trapezoid frame design provides easier access into corners.

The Sphergo Swivel® pole and base combination can be used with any 18"-20" disposable or reusable microfiber flat pad, but we recommend pairing Sphergo Swivel® with the Virtu-Clean® line of disposable cleaning pads for even more efficacious cleaning and less worker strain! These specially engineered pads are designed to reduce friction while maximizing cleaning results and coverage area.

Cleaning is a Virtue with Virtu-Clean® Disposable Cleaning Pads

Charge once, even coverage, and a cleaner floor.

Not all cleaning pads are equal. Absorbency rates, release rates, coverage, and linting can vary greatly, significantly impacting the finished product. Virtu-Clean® Disposable Cleaning Pads are specially engineered for critical environments, giving you maximum coverage, cleaning, and convenience. Our disposable, single-use mop pads check all the right boxes – they hold more liquid, release that liquid at a controlled rate over a larger surface area, and reduce friction for more effort-free cleaning.

Virtu-Clean® Disposable Cleaning Pads

VCU | Virtu-Clean® Universal Disposable Cleaning Pad

- USP <797> Compliant
- Eco friendly manufacturing with no chemical dyes used in the process
- Single use application to reduce risk of cross contamination
- No quat binding
- Compatible with chlorine bleach, hydrogen peroxide, and common disinfectants
- 300-360 sq. ft. cleaning coverage
- Absorbs 9x its weight in liquid
- Superior absorbency and good release provide consistent coverage and cleaning
- Embossed pattern reduces friction for less strain on workers
- Channels efficiently pick up and retain dirt in pad
- Bonded edges improve performance greatly, reducing linting for a cleaner clean
- Polyester backing produces less lint upon removal from base
- Bag in bag packaging for cleanroom application
- Perfect for foodservice and food processing operations, healthcare facilities, cleanrooms, controlled environments, surgical rooms, ICU areas, pharmacy applications, and other institutions

VCDC | Virtu-Clean® DC Disposable Cleaning Pad

Featuring the same performance characteristics of the VCU pad noted above, plus the pads are more environmentally friendly with 50% post-consumer recycled content. The addition of a Velcro® backing also provides a more aggressive hold, making it the ideal choice for walls and ceilings.

VCDCS | Virtu-Clean® DCS Disposable Cleaning Pad w/Scrubber

Same as the VCDC pad, but with built in scrubbers for more aggressive cleaning and stain removal. Holds 7x its weight in cleaning fluid, which translates into a charge-once-and-clean coverage area of 240-300 sq. ft.

VCDCS

 Cleaning pads marked with this symbol are environmentally friendly with 50% post-consumer recycled content.

All pad options can be used with most flat mop bases; however, Hospeco Brands Group designed and recommends the pads be used with the new Sphergero Swivel®, for a more complete ergonomic cleaning solution.

Nothing cleans better.

What is Microfiber?

Soft, ultra-absorbent polyester (80%) and polyimide (20%) fibers are split until they are thinner than silk. Microfiber pads average 200,000 microfilaments per square inch. One strand of MicroWorks® Microfiber is several hundred times smaller than a strand of cotton. The wedge-shaped, lint free, hypoallergenic microfibers lift and trap dust, grime, and moisture without harming/scratching delicate surfaces.

How Does Microfiber Work?

To be effective as a cleaning product, it has to be split microfiber. If it is not split during manufacturing, it isn't much more than a very soft cloth. One way to determine if the microfiber is split is to run the palm of your hand over it. If it grabs the imperfections on your skin then it is split. Open spaces in the fibers are created during the splitting process, which makes microfiber an effective cleaning tool. Microfiber provides a higher level of surface area, ideal for more efficient cleaning.

Microfiber fibers are positively charged. Dirt and dust are negatively charged so they are attracted to microfiber like a magnet. The microfiber holds on to the dust and dirt until it is released in the laundering process or when it is rinsed out.

If you were to look at a cross section of split microfiber, it would look like an asterisk. The split fiber working in conjunction with the space between them is what does the cleaning.

Greener - Uses 95% less water and chemicals than a traditional cleaning system. Durable pads launder for reuse, reducing solid waste.

Benefits of Microfiber Products

- Highly effective at removing dust and bacteria
- Lifts and traps dirt
- Perfect for both wet and dry applications
- Eliminates streaks, reducing cleaning time; low lint
- Cleaning solutions go further, longer use between tasks
- Color coding helps reduce potential cross contamination
- Scratch free/non-abrasive material
- Very absorbent; absorbs up to 7 times its weight
- Machine washable - withstands hundreds of washes (Do not use chlorine bleach or fabric softener as they will break down the integrity of the cloth)
- Will last 5-10 times longer than conventional materials
- Microfiber cleans more efficiently, reducing labor and chemical costs

Microfiber Floor Care and Duster

**MicroWorks®
Microfiber Wet Flat
Mop With Velcro® Back**

- Can be used on any hard surface and leaves no residue
- Center layer has additional microfiber for increased absorbency and durability
- Will last through hundreds of launderings

The right sorbent for every spill

Sorbent Types

Standard universal sorbents absorb both oil and water based fluids. Typically gray in color. Best choice for most indoor spills.

Sorbents that have recycled content are marked with this symbol in the sorbent products section.

Oil Only Sorbents absorb oil/ hydrocarbon based fluids and repel water. Typically white in color. Most effective when used outside.

Hazmat sorbents are also universal and absorb aggressive chemicals or unknown spills that can be both oil and water based. Yellow is a universal color for safety and caution and provides high visibility. The color coding will easily identify these sorbents in an emergency and warns that hazardous fluids may have been absorbed into the product. These sorbents can withstand chemicals and will keep compliancy with a growing number of local, state and federal regulations. For indoor and outdoor use. *Hazmat Sorbents available upon request.*

Sorbent Formats

Sorbent Pads are the fastest way to clean up a spill and the most popular format

Sorbent Rolls are designed primarily to cover large areas and walkways.

Socks are used to soak up or create a barrier to contain the spill.

Pillows are used to absorb leaks too large for a pad.

Booms are an ideal solution to contain and absorb large spills in water and on land.

Drum top pads absorb fluids that result from messy drips and spills from the drum dispensers.

Rugs and mats can be used on walkways that may often be wet, for safety purposes to provide good traction.

Emergency response spill kits help prepare any facility with everything needed for fast response to unexpected spills.

Truck spill kits are compact and can be easily stowed for convenient access when a spill occurs.

Sorbent Technologies

Meltblown

Made from 100% polypropylene. Most commonly used sorbent technology. Available in oil only and universal.

ColdForm2™

Made from recycled and renewable natural resource fibers, more sustainable and environmentally friendly. Available in oil only and universal.

Sorbent Construction

Fine Fiber Increases absorbency rate, wicking, capacity, and fluid retention.

Lamination adds strength and reduces linting.

Sonic Bonded will enhance sorbent durability.

Sorbent Weights

Weight is chosen based upon amount of fluid to be absorbed and required sorbent durability.

**Light weight
(150-199 gsm)**

Great for small leaks and spills.

**Medium weight
(200-249 gsm)**

Very absorbent but not as durable as heavy weight.

**Heavy weight
(250-299 gsm)**

The industry standard with added durability and absorbency.

**Extra heavy weight
(300-440 gsm)**

Premium and durable for heavy duty applications.

TaskBrand® Universal Sorbents

- Soak fluid spills that are water and oil based
- They are a good choice for most situations

Pre-saturated Cleanroom Wipes

- Reduce the use of squirt bottles and dipping cans
- Reduce the amount of isopropyl alcohol used
- Use the exact percentage of IPA each application
- More even distribution of alcohol on the wipe and hence the wiping process
- Fewer VOCs (Volatile Organic Compounds)
- Safer to use, ship, and store than flammable liquids
- Convenience: No pouring, spraying, filtering, or diluting

A 70% concentration of ethanol or isopropyl alcohol has been demonstrated to be the most effective. Water acts as a catalyst and plays a key role in denaturing the proteins of vegetative cell membranes. The water content slows evaporation, therefore increasing surface contact time and enhancing effectiveness.
