Super Clear Cello-Bags

Premium Gusseted & Flat Acrylic Bags!!!

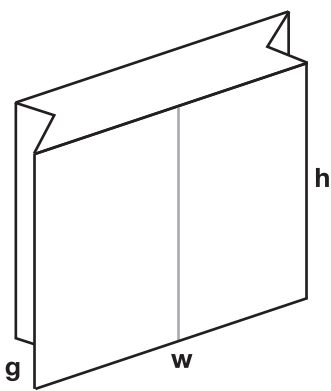

Super Clear Cello-Bags

• Amerifilm Cello Bags, offered in a variety of stock sizes or made custom, are the high-end bag of choice for food manufacturers or re-sellers looking for a superior aroma and moisture barrier without having to give up the super clarity and glossy appearance.

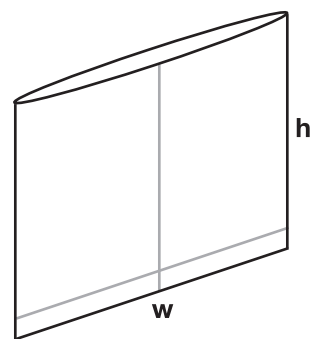

Amerifilm Cello Bags are manufactured with coated oriented polypropylene films and are offered both as flat or side-gusseted bags. All of our bags feature a lap seal on the back and a reinforced fold over bottom seal.

While our flat bags are ideal for packaging thinner products, our gusseted bags are easy to fill and will stand up on their square base for added Point Of Sale appeal. Our bags can be sealed either with a label or simply heat-sealed.

Gusseted
